

Recombinant Human NGAL

Catalogue No.:P-Db38430
Species:Human

Uniprot ID:P80188
Expression Region:21-198
Host:E.Coli

Tags:No tag
Molecular Weight:20 kDa under reducing conditions
Purity:Greater than 90% as determined by SDS-PAGE.

Formulation:
Lyophilized from a 0.2 µm filtered solution in 10 mM Hepes, 150 mM NaCl with 5% trehalose, pH7.4.

Reconstitution:Centrifuge the vial before opening, reconstitute in sterile distilled water to a concentration of 0.1-1 mg/ml by gently pipetting 2-3 times, don't vortex.

Storage:The lyophilized protein is stable at -20 °C for up to 1 year. After reconstitution, the protein solution is stable at -20 to -80 °C for 3 months or 1 week at 2 to 8 °C under sterile conditions. For extended storage, it is recommended to further dilute in working aliquots, avoid repeated freeze/thaw cycles.

Synonyms:LCN2, 24p3

SDS-PAGE:

Safety Note:This product is intended for research and manufacturing uses only. It is not a diagnostic device. Product degradation will result from multiple freeze/thaw cycles. It is suggested that the antigen be stored in use size aliquots and thawed just prior to use. This material has been inactivated, however as with all I
